

On the 24th to 25th November Innovative Knowledge Institute is holding a Seminar **Train Teachers to Work in a Culturally Diverse Environment** in Paris you can join in by Webinar every day at 9:30am to 4:30pm for the two days Seminar or just book a slot for the **subject** you would like to take part in.

This seminar is designed for education professionals who work in today's multicultural environment. Many schools have to face the new wave of multicultural classrooms; Personnel need to be trained for high performance in dealing with different students' origins. This seminar provides the introduction to such training and to an understanding of the cross cultural field.

You will be able to listen to other colleagues in the same profession of their experiences and participate with your understanding. You will learn new skills and be able to take your knowledge and understanding back with to share with your School, College, University.

This seminar will help increase the well-being of your students and colleagues.

Course objectives:

I- Introduction

- Teaching Diverse Learners
- Resources for Multiculturalism and Diversity:
- Strategies for Teaching Culturally Diverse Students
- Empowering Educators Through Cultural Competence
- Creating a fair and tolerant environment

II- The Adaptation in teaching

1. Study various cultures and different views
2. Recognize and understand others' perspectives before judgments
3. The contributions of heterogeneous groups

How to train and adapt in a Multicultural Education

- a) Students backgrounds and thoughts
- b) Students 'creativity.
- c) Creation of an Anti-Racist Classroom: explanation of race, encourage multiculturalism.

III- Developing Cultural Sensitivity

Role-play in groups of four. The purpose is to explore cultural sensitivity beyond the classroom as well as various teaching strategies that can be applied in culturally diverse classrooms.

IV- Methodology

Tools to teach the similarities and differences among the students in the classroom.

Techniques involving how students learn and observe each other to identify the way to proceed.

Teaching students to adapt their behavior to the environment.

V- Instructional Strategies

- Use of students' cultures and language skills when developing learning objectives and instructional activities.
- Thinking and acting.
- Monitor students' academic progress
- Feedback.
- Promoting respect for cultural diversity.
